P.N. OriOri

O: THE PARENT GUARDIANS!! (SHOCK)sweat!

The parent guardians have started...
Just what do you all want me to do!! \$ - B - \$!

That's what it actually is. That's right We'll be starting now.

R: As the midterm season approaches, there's only one thing that I
need to be doing right now, and that's BECOMING PIRATE KING!!
P.N. Momotaru

O: NOR (SHOCK) Just, uh, NO!!

I think you've just made a grave mistake. In life.

R: Odaachi! ESo. So Marine Admiral Chaton, who asked out bomb-
shell sexy dynamite Momomusagi from the SBS on page 86 of Volume
74 100 times and got rejected 100 times looked something like this,
right? (→)

P.N. The Hide-yan with the red hair

O: Uhhh. So since he can't possibly be one of the
admirals... Oh, it must be that dude, right?

Left: Acciden-
tally wearing
back-to-front
Coat: Justice

The guy that, like Momomusagi, was nominated to be
an admiral: this (→) guy, Vice Admiral "Chaton",
right?! You're right, you're right, I found him in my
sketchbook. There actually was a time at one point
where I considered making the new admiral a "Pig"
and "Kappa" to match the "Monkey" "Pig" and
"Kappa" trio from Journey to the West. However, in
the end, I decided against it and we're here now with
our newest additions, the "Tiger" and the "Boil". There
is an actual reason for this, but I won't tell.

Vice Admiral "Chaton" (Brown Pig)

OOPLA-

(Captain Y. Oshaka)

R: I saw cute Shirahoshi on the cover and started reading Volume 63 when I suddenly realized something.

That one ex-slave girl that Tiger took back to her village, her name... was Koala, wasn't it?? Wasn't it!!!!?

You're gonna have to be responsible about this! Oda-Sama!!!

P.N. The Very Great Red Apple-chan

O: You're absolutely right. People who didn't notice could've just treated her as a new character and carried on with their reading, but I'm really thankful to see that quite a lot of you actually noticed. I imagine that people in the "Revolutionary Army" all have some sort of strong feelings that go against the flow of the world, but as for the current "Fishman Karate assistant instructor", I just started thinking about the kinds of emotions that the human girl named Koala must have gone through in life after her previous appearance, and the things that came to mind just brought out all the feels inside of me.

To me, Koala is someone who leads a life that is polar opposite to that of Hody's, and I feel that, in general, she is a very special character.

R: Nice to meet you. I am a 24 year old lady who has an affection for sharks. Sharks are widely known for having 2 dicks, but does Hody also have 2 dicks? Also, how many dicks does Odaachi have?

P.N. I want Shirahoshi to be my waifu

O: THEY HAVE 2 OF THEM!? (SHOCK) Sharks have 2 of them!? Wow, I had no idea. They're widely known for it? I've drawn lots of sharks in my lifetime, but I had no idea. Thank you so much. If so, Hody has 2 of them as well.

He has 2 dicks, so he must be a double dick!

I guess personally, I only need one.

(Hippo Iron, Sahama)

R: The tail-like thing that dwarves have on their bums. Just what are they?

Pennane Maa-kun

O: Er, they're tails. They may look very soft and bushy at first glance, but they have extremely hard cores inside made of bones and muscle that assist with their extremely quick movements, and they also have the ability to apply a great amount of brute damage that comes in handy during battle.

R: Question. I used to think that my husband was a Beta Beta no MI user.

This is because his face, neck, and armpits are always extremely sticky.

But then, it was revealed that Trebol is the current Beta Beta no MI user...

So then just what is my husband's ability?

P.N. Enukidoh

O: It must be the ability to excessively sweat.

R: This may be sudden, but please tell me, is the lighter that Sanji was using in "Z" (the movie) and the one he uses in the beginning of the anime opening "HANDS UP!" the same one?

P.N. Loves ♥ the Cook way too much A.K

O: "HANDS UP!" seems to be the previous anime opening. I have no idea whether it was used there, but during the time around when "Film Z" was aired, I actually personally collaborated with a French company called "Dupont", and the lighter I designed made it's appearance in the movie. To tell you the truth, I also secretly slipped it into the main series on chapter 663 of Volume 67. Hm? Have I said this yet? Oh well. I think you'll be able to find the real thing on the Internet if you search "Dupont Oda" online. Also, Sanji uses this lighter.

GUOH-

E: Question. Oda-san. The two guys I have here who seem to be really fond of police dogs must be the same person. So this old guy had actually seen Kiba back when he was young after all, huh.
P.N. Perry Tapochi

O: Ok so. This must be the recent scene where this guy in the colosseum is talking about how he feels like he's seen the musical gladiator Kiba, aka King Kiba, before in the past. He does, in fact, also make an appearance in the colosseum as "Kiba" during the flashback. So you may be wondering, "Is the guy who was in the audience back then this person?" but as usual Your intuition seems to be very sharp, but you can actually locate this man, who is a long time regular at the colosseum, on a different day. Don't you agree that the person from chapter 741 looks really, exactly like him? Now that we've got that down, take a look at the guy above the man in the panel you've pointed out to me. It's that dude!! (o) Let me introduce him to you! Mr. Makkashimi Tower age 56. He loves watching gladiator fights- so much that his wife and child left him- but he's still doing great!

E: Good morning (currently 9 AM). So about volume 57 chapter 560! Right in the scene where Luffy hugs Hancock, I understood when the marines said it was a "Fish Break" ぶり壊し - a screw move, but I've never heard of a move called "Screw" 廻り, written with the kanji Saba (Mackerel, which is written by combining the kanji for "fish" 魚 and "blue" 青) and the word Ori (回), to bend or break) before. What in the world kind of activity requires a move written as "Fish Blue Break"?
P.N. T.T

O: Yes, Fish and Blue combined. A Screw Mackerel Bend also happens to be a screw move. To use it, you must embrace your opponent and break his hip. Seeing how Hancock flapped onto the ground afterwards, the Marines must've thought that this was the move Luffy used on her

R: I have just one thing to say to Odaichi as representative of all young maidens.

SENROR PINK SHOULD NOT HAVE BEEN A THING

Just, NO!! That thing...

C: could you possibly be into that kind of thing, Odaichi-sensei...?

P.N. Ladies' Representative Matsumoldori!

O: OH, HE'S A THING!!! HE'S TOTALLY A THING!!

Um, could you not take Senor so lightly? It says here that you're 17 years old, and yeah I get it you youngin's tend to always judge a book by its cover, so just you wait, I'll show you soon.

The epitome of manliness, that is!
What it really means to be hard-boiled!!
Just you wait--!

R: Question. What would happen if you chow down on a bunch of tomatoes at the pool and wipe your mouth down with the bikini of some random cutie walking marby?

.....That's gotta be it, right!? She'd fall head over heels for you, right?!

Alright, Let's Fool! Wahoo---!!

Odaichi... I got arrested..... Why??

P.N. I want to be Shimizu Chapero's disciple

O: Ouch... So someone actually went and did it...!! I understand those feelings of longing and admiration to be like Senor.

So you're currently 19 years old. I would advise you to experience life for say, around 50 more years, until you start reeking of coolness. I promise to develop Senor's character and good side to guide you in your journey!

Also, I wouldn't go in the direction of your pen name. Just don't end up on the wrong side!

K: Odaochi, nice to meet you! So getting right to the point!
What is Sugar's true age?
It bothers me as much that Sugar was the only thing I could think of during exams! Even though I have to get into college...

Thanks to you, my scores were absolute crap ♡
P.N. Sakara

Q: So they were absolute crap. Well that's absolutely scrappy! See you later!

So, there's more background to this, but in a nutshell if you think about all the present facts that I have to take into consideration, she's actually not that much of an old hag after all.

At the moment her outer appearance has stopped at the age of 10, but her true age is 22 years old. That would be 2 years younger than Baby 5. —In fact, let me just reveal the entire family's ages right here.

Ufufu.
Yucky.
Go die.

22 years old

With ages ranging from the 10s to the 70s, they're really just like a big, big family. Alright, and that'll be my time. \$\$\$ ends hard! However, at the end of the volume, there will be a notice about the first character popularity poll in 5 whole years!! The popularity poll that, so far, only Shonen Jump readers were given voting ballots to! We've decided that the Comics readers should also be allowed to participate, so if you're interested, make sure to read the end of this volume! Now then, see you in the next volume for more \$\$\$!

These days, people tend to prefer fancy terms when color-coding merchandise, like using "chocolate" over brown or "rose" over red.
I like it.

Like "champagne gold" or "wint" or "wine", "ruby", "cherry", "fudge", "caramel", "natto" "rice" "miso soup" "pickled plum" "now then" "the" "spot-colored" "volume 75"
